

Unit Activity #5

Research a traditional cultural practice (ritual, ceremony, holiday, etc.) currently observed in the world today, which you consider to be unnecessary, insensitive, or harmful in some way.

Consider:

- Superstitious practices
- Religious practices
- Things we do just for the sake of doing it, even if we don't know why
- Whether or not this practice is harmful
- Whether or not this practice is motivated by economics

I need:

- One paragraph explaining how this tradition/ practice is unnecessary, insensitive, harmful, or irrelevant
- A link – or printed page – of the resource (or resources) you consulted.
